Art Unit: 1793

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 1-4, 11, 14 and 15 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. In claim 1, it is indefinite as to whether the magnesium is required to be present in the boron nitride crystals, or whether it could be distributed in intergranular regions, for example. In claim 11, it is indefinite as to whether "hydrocarbon organic compound" would simply be a hydrocarbon, or whether it could be an organic compound other than a hydrocarbon.

Claims 5-10, 12 and 13 are allowed.
